

## **UI BME TEAM SERVED AS JUDGES AT INTERNATIONAL DESIGN COMPETITION**

The University of Ibadan Biomedical Engineering (BME) team consisting of Professor A. O. Coker, Dr A. A. Dare, Dr M. O. Petinrin and Padraic Casserly recently served as judges at the 4th Malawi Innovators Design Competition (MIDC) which held on 28 February, 2022 at Malawi University of Science and Technology (MUST), Blantyre, Malawi. The 4th MIDC featured over 50 projects exhibited by academics, innovators, engineers from universities and the private sector in Malawi. The projects covered the following thematic areas: Agriculture, Education, Energy, Environment, Health and Technology. Other judges came from different parts of Africa (including Malawi) and the US.

The UI BME team is flanked by Dr Ashley Taylor and Emily Mitaro from the Institute of Global Health Technologies, Rice University, Houston, partners on the Newborn Essential Solutions and Technologies (NEST) project
